

To all members of local 46, especially our 900 Strong:

This is your Business Manager Sean Bagsby with a negotiation update.

Frank and I along with our Team are still locked in negotiations. It seems we'll burn the midnight oil if needed, and will miss most of the meeting tonight. Your team are still at the table trying to reach an agreement at the 11th hour. All Members will be updated when we have news to share. Everyone is to continue working until directed by me otherwise.

Thank you for your patience.

Sean Bagsby
