

Hello union family! We have a member down and his family needs our help while navigating this current chapter of their lives! We did take up a collection during the general meeting, and his partner Brittany and his mom, Lisa, thank everyone that was able to give! I will be taking that check out to his family next week. Both are grateful for the love and support of our union family! Please give what makes sense to you and your family, knowing that any one of us could be in this situation at any time. Thank you so much for your solidarity and brotherhood for Curtis! Let's remind him what being part of a union is all about! Please reach out to me if you have any questions or information you want to share.
